OPTIONAL

11th Grade Health Education

As of 1983, the New Jersey Department of Education has mandated that each public school district implement a Family Life and Sex Education curriculum and, as of 1992, instruction in HIV prevention education.

Midland Park High School 11th grade health curriculum takes an in depth look of family life education taught through a values clarification approach and includes these mandates. Parents, however, have the right to withhold their child from these portions of the curriculum. If you wish to request your child be withheld from this curriculum please complete the information below.

Request to opt-out of Health 11 Family Life and Sex Education curriculum

At this time I wish to have my *son/daughter* _____
withheld from those portions of the health curriculum that deal with Family Life, Sex Education, and/or HIV prevention. **I understand that students will be required to fulfill health curriculum requirements and will be required to complete alternate assignments.** I understand that should I change my mind in the future I may submit that request in writing to Midland Park High School.
