

Summer assignment Honors Biology 2020

1. Please, pick up the Biology Book: Miller&Levine Biology.
2. Read and outline (handwritten) pg. 34-38 The Nature of Matter. The outline should consist of 15 important facts and show an understanding of the content! Please study your outline!
3. Please, answer questions pg. 38 1-5 and questions pg. 56 1-8 (handwritten!) and study the answers.
4. Question 8 should be on a separate piece of paper and all parts should be clearly labeled! Before you start sketching the molecule, please make sure to show the correct type of bond between the two atoms (google!?). The sketch should be scientifically correct and visually appealing (please use a compass, ruler and color).
5. All assignments will be collected and graded!
6. <https://www.youtube.com/watch?v=EMDrb2LqL7E> Please, watch the video and then write a summary (at least two paragraphs with all key terms underlined)
7. During the first week of school the Honors class will take a quiz/quizzes about "The Nature of Matter!"

Have a great summer and a lot of fun!

All the best!

Mrs. Parvanov-Dawson
